Jarol Martin

Born in Cuba, Jarol Martin felt a great interest in the secrets of illusion and the performance of magic. At the age of thirteen, he was accepted in "La Casa de la Cultura," (The House of Culture), that is a place where talent is nurtured. He then began his career as a magician.

A credit to his skills, he was selected for a cultural project/tour that would take him all over his native country. On this tour, he was selected as the "Artist of the Year."

From there, he created and performed in variety shows all over Central and South America.
